SIEPSER LASER EYECARE FINANCIAL POLICY

Thank you for choosing Siepser Laser EyeCare. We are committed to providing you with excellent service in every area including billing and insurance claims filing. Please read and sign our Financial Policy.

Our practice participates in many Medical and Vision insurance plans. If your plan does not cover services provided by our physicians, payment in full is expected at the time of your visit. We accept cash, checks, VISA, MasterCard, Discover and American Express.

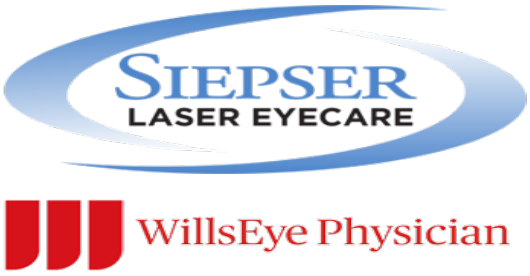
Please be sure to provide us with your most current insurance card(s) at each visit. We cannot properly file your insurance claim if we do not have accurate insurance information in your account. If you do not have your insurance card with you at the time of service we will be happy to see you but payment in full will be due at the time of service. You must bring your insurance card to us in order for the claim to be filed. Once payment has been received from your insurance company, we will gladly refund the patient payment less any applicable co-pays or deductible. We must emphasize that your insurance coverage is a contract between you and your insurance company. We are a specialty practice. We realize temporary financial difficulty may affect the timely payment of your account. It is your responsibility to contact us promptly for assistance in the management of your account. Remember we are here to help. ***Patient balances are due with 30 days of the date of service and insurance reimbursement.***

Currently all of the insurance plans we are contracted with require that we provide the patient's full name, date of birth, social security number and complete home address. If you feel uncomfortable providing us with that information, we will provide you with a bill so you can file your own claim with your insurance plan. If you choose to file the claim yourself, payment in full will be due at the time of service.

Office Visits: Eye Examinations have two portions, the eye exam and the refraction. The refraction is the measurement taken to determine if there is a need for glasses and if so, your glasses prescription. Refractions may be done for routine eye exams or medical exams. **Most insurance plans, including Medicare do not pay for refractions. You will be asked to pay for the refraction at the time of your visit. This $60.00 fee is additional to any co-pay or deductible. If you currently wear, or wish to start wearing contacts, there is separate charge for the contact lens fitting which must be paid at the time of service.**

Many insurance plans require a referral/authorization for specialist office visits. You will need to obtain this referral/authorization from your primary care physician **prior** to being seen in our office.

Surgery: If you are having surgery we will assist in getting pre-certification or prior approval for your procedure. Please keep in mind that most insurance plans have deductibles, copayments, or both, associated with surgery, and you will be responsible for payment of these fees at the time of service. We suggest that your review your insurance plan prior to visiting our office, so you will be familiar with your insurance plan guidelines and requirements. Please be prepared to pay patient responsibility at the time of service.



Billing and Credit: ***Statements will be mailed monthly and are due for payment with 30 days. Monthly statements will follow until the account is paid in full.*** If you have any questions, please feel free to discuss them with our Insurance/Billing Department by calling 800-413-7764. ***If you have not paid your bill, or have not set up payment within 90 days, we will ask for assistance from our collection agency.***

PROFESSIONAL COURTESY POLICY AND CODE CHANGE REQUESTS: We greatly value our privilege to provide medical care to all of our patients. In accordance with state and federal regulations, it is potentially unlawful to accept "insurance only", to waive copays, and/or to alter codes that accurately depict medical services rendered. For these reasons, the practice of making "professional courtesy" adjustments is strictly prohibited at all Siepser Laser EyeCare Practices, as is the practice to alter codes that accurately depict the services rendered.

CONSENT FOR TREATMENT

The undersigned Patient /Guardian has received a copy of our financial policy and hereby authorizes the physicians of Siepser Laser EyeCare, and the employees', to perform any treatment or procedures they may deem necessary for the Patient's treatment.

_____ _____

Signature of Patient or Guardian Date

I hereby authorize the staff of Siepser Laser EyeCare to release information to insurance carriers, appropriate physicians and/or Workers' Compensation departments, as required, concerning my illness and treatments and authorize all payments made to Siepser Laser EyeCare. I understand that if I did not get prior authorization as required by my insurance, that I will assume all financial responsibility for such charges associated with my visit.

Date: _____

Addendum

In recognition of the integral role that family and friends play in a patient's health care, the HIPAA Privacy Rule allows these routine – and often critical – communications between health care providers and these persons. Where a patient is present and has the capacity to make health care decisions, health care providers may communicate with a patient's family members, friends, or other persons the patient has involved in his or her health care or payment for care, so long as the patient does not object. See 45 CFR 164.510(b). The provider may ask the patient's permission to share relevant information with family members or others, may tell the patient he or she plans to discuss the information and give them an opportunity to agree or object, or may infer from the circumstances, using professional judgment, that the patient does not object. A common example of the latter would be situations in which a family member or friend is invited by the patient and present in the treatment room with the patient and the provider when a disclosure is made.

Where a patient is not present or is incapacitated, a health care provider may share the patient's information with family, friends, or others involved in the patient's care or payment for care, as long as the health care provider determines, based on professional judgment, that doing so is in the best interests of the patient. Note that, when someone other than a friend or family member is involved, the health care provider must be reasonably sure that the patient asked the person to be involved in his or her care or payment for care.

In all cases, disclosures to family members, friends, or other persons involved in the patient's care or payment for care are to be limited to only the protected health information directly relevant to the person's involvement in the patient's care or payment for care.

In the space provided below please list the names and contact information individuals who have permission to be noticed regarding your health care information.

REFRACTION POLICY

A refraction is the process of determining the eye's refractive error by testing for best corrected vision, or the need for corrective lenses (glasses or contacts). It is an essential part of an eye examination to determine medical issues such as cataracts, but it is NOT a service covered by Medicare or most medical insurances. The fee for refractions is collected on the day of your exam and is in addition to any copayment or deductible required by your insurance company – the co-pay or deductible is for the medical portion of your exam and is separate from and not included in the refraction fee. Medicare does not cover refractions and most insurance companies follow Medicare's policies as a guideline. If you have a vision care policy, we will give you a receipt to submit for direct reimbursement from your insurance plan. The fee for a refraction is $60.

If you do have a refraction, to help offset the fee we will give you a coupon that you can redeem for $60 off a complete pair of glasses or $20 off lenses only across the hall here at Siepser Optical .

_____ I agree to pay the $60 refraction fee if it is deemed necessary.

_____ I do not want a refraction even if it is deemed necessary.
